## Vikings Lose Finale, 51-48

The Grayling High Vikings wound up their 1963-64 basketball season on a blue note last Friday night as they bowed to the invading Boyne City Ramblers by a tight 51 to 48 score.

The loss gave Grayling a 4 won, 10 lost record in the conference and a 4-12 mark over all. Gaylord blew a chance for the conference championship all alone when the Harbor Springs Rams dropped them 56 to 46. Pellston and Charlevoix nailed down a share of the title with the former stopping East Jordan 81 to 66 and the latter just edged out luckless Mancelona 47 to 46.

Last Friday night, the Vikings jumped off to a 14 to 4 first period edge and still managed to hold the advantage at intermission by 24 to 22. They increased their lead in the third frame to 39 to 34. A big 17 to 9 final canto for the Ramblers as Grayling fired gave Boyne City the win.

Terry Smith with 15 was the only Viking in double figures. Curt Feldhusen added 9. Bill Joseph and Walt Neilson 7 each, Richard Smith 6 and Eddie Robertson 4. Jim Mitchell with 15 and Tom Sproull and Bill Darbee with 14 each paced the Ramblers.

Grayling scored on 15 field goals and 13 out of 26 free throws. Boyne City hit 20 times from the field and added 11 out of 25 charity tosses. Boyne lost the services of Darbee via the personal foul route.

The game marked the final hardwood action at home for five Grayling seniors. They are Bill Joseph, Steve Dawson, John Engel, Gary Lucksted and Jim Young.

The little Vikings had a much easier time of it Friday night. Their 52 to 17 victory was so easy that Grayling javee-coach Don Ferguson used 19 players in the contest.

The Viking reserves won every quarter. The first by 12 to 3, second by 17 to 8, the third by 15 to 2 and the final by 18 to 4. Terry Wright with 12 and LeRoy Neal and Pat Thompson with 10 each were all in the double figures for Grayling. Mike Corlew added 6, John Sorenson 3, Kyle Slusser and Bob Smock 2 each and Peter Funkh a foul shot.

## Fire Fighters Receive Donations For July 4th.

The Grayling Fire Department has received two donations of \$5 each towards the Fourth of July celebration, from individuals. They also added the money given by Miss Lillian Hill at the time of the fire at the Hill home by the Woman's Club Monday evening that they would participate in the July Fourth celebration by taking charge of the lunch corner on the courthouse lawn.

The Swiss steak and porkchop dinner planned for this month has been set for March 28th. The place and time have not yet been decided.

It has been brought to the Department's attention that when parents drop off their children or wait to pick them up at the Rialto Theater, a condition of traffic congestion is created which, in case of fire anywhere in that vicinity, could develop into a serious situation. The Department hopes that parents will change their practice and pick up their children at either end of the block, so as to avoid any congestion in the streets. The distance involved is a matter of yards, while the hazard reduction would be very great.

Pictured above are four of the ski slopes at Mount Frederick which are lighted for night skiing. Owner Alain Almon explains that there are thirty-five, 1,500 watt quartz lights covering the slopes. These are all tied to an underground electric cable system. This area is served by a T-bar lift and the beginners tow. Plans have all been set for Mount Frederick's annual Corn Snow Frolic which will be held this weekend. Skiing in fancy costume will start at noon on Saturday

and Al's famous snow bar built outdoors in front of the lodge will be in full operation. Night skiing gets underway at 7 p. m. and Saturday night also calls for a big get together and a steak dinner. Al is also tentatively planning a Skite weekend for the last weekend in March to wind up the season. Skiers will be encouraged to bring kites along with them for flying and there will be prizes for the largest, highest flying and many other categories.

## Local Red Cross Quota \$1,971.00, Drive Divided Into Two Parts

March is Red Cross month — The 1964 quota for membership and funds in Crawford County is \$1,971.00.

The drive in Crawford County has been divided into two parts, the advance letter program being carried out in March, and the local drive in October we are reminded by Mrs. Leo Jorgenson and Jess Skinner, campaign chairmen.

The Red Cross is perhaps the one symbol most recognized and most welcomed by all mankind. In every part of town, in every section of the nation, in every corner of the world, the Red Cross stands for neighborly help wherever there is human need.

To disaster sufferers—the Red Cross means shelter, food, clothing, medical and nursing care, and help in returning to their pre-disaster way of life.

To American men and women in uniform, whether serving half way around the globe or newly arrived in training camps, with personal or family troubles compounded by separation, the Red Cross means helpful counsel and, in emergencies, rapid communication and financial assistance.

To surgery patients or the chronically ill Red Cross means life-giving whole blood and its disease-fighting components — gamma globulin, serum albumin and fibrinogen.

To the traffic accident victim down the block or the innocent bystander wounded in the fighting in the Congo or some other Cold War "hot spot", the Red Cross means prompt aid that may spell the difference between life and death. With increased international tensions and greater awareness of the need for someone in every American family to be skilled in first aid and home nursing, Red Cross chapters are stepping up their health and safety training programs.

The Red Cross is able to give

It was also revealed that the Library Board was meeting with the Grayling-Crawford Planning Commission on March 16 to discuss sites for the new building.

## Woman's Club

The Woman's Club meeting Monday evening at the clubhouse was very festive with home-made hats as its theme. Mrs. Glen Fenton presided at the business meeting. The secretary read a letter from a Panamanian-United States teacher. It was decided for each member to do some research on the situation and then a letter will be drafted to the necessary parties in Washington, stating the club's views.

Program ideas for the coming year should be brought to the next meeting.

Library week is April 12-18. The Woman's Club will sponsor a tea at the local library, the date to be announced later.

Mr. Frank May, Fire Chief, explained plans for the Fourth of July celebration in Grayling, and the part the club could take. The group voted to take the lunch corner on the courthouse lawn.

Various home-made hats were modeled, and each person explained their construction. Mrs. Ace Leng and her Postmaster's hat of red and white nylon net, decorated by various stamps, postal labels, cancellations, and postal box was voted the winner. A yellow rug was awarded as a prize.

## Vikings In District Cage Tourney Thursday Nite At Roscommon

The Grayling Vikings are slated to get into District High School Basketball Tournament play tonight (Thursday) at Gerrish High School with the foe the champions of the Northeastern Michigan Class C Conference.

The game will start at 7:30 p. m. and Grayling's opponents will be either the host Roscommon Bucks or the Whittemore-Prescott Cardinals. It makes no difference which it is as they were co-champions of their conference. They will meet on Tuesday night and the winner will advance into tonight's game. The winner tonight will meet the winner of the Alcona Lincoln-Houghton Lake contest which is slated for Wednesday night.

The championship game is set for Saturday night with the tipoff at 8:00 p. m. Houghton Lake finished second in the conference after blowing a three way tie for the championship by losing to Whittemore-Prescott last Friday night 74 to 68. Meanwhile Roscommon kept pace to hold their tie with a 70 to 69 win over Beaverston. Alcona Lincoln stopped Arenac Eastern 76 to 59 Friday night.

Officials named for the tournament designated as No. 93 are Charles Carpenter and Gerald Hoffman, both of Bay City, who will work Tuesday and Thursday nights, and Vaughn Geiger and Edward Clauss, both of Mount Pleasant who will work the Wednesday and Saturday night games.

With three of the strongest teams in their conference in contention plus another which at times has shown strength, the Northeastern Michigan Class C Conference should capture the championship trophy at Roscommon. Grayling has an outside chance to come through, but can only do it if they play the best basketball in both games that they have shown on only a few occasions this season.

## Tourney Tonite Eagles vs. Alba

The Frederic High Eagles will get into their first tournament play (Thursday) at the Class D. District at Gaylord as they face the Alba Wildcats. The game is slated to start at 7 p. m. If the Eagles win over Alba they will vault right into Saturday night championship game where their opponents without any doubt would be the Gaylord St. Mary's Snow Birds.

Last week, the Eagles wound up their regular season with two games at home and unfortunately lost both. Tuesday, they were stopped by Vanderbilt 90 to 52. Mike Harmer with 24 points was high for Frederic while Mac Robinson with 20 was high for the winners. Friday, the Eagles outscored visiting Central Lake in every quarter except the final and then fell to pieces to lose 67 to 41. Harmer again was high for Frederic with 19 while Payton Powers paced the Lakers with 24.

The Eagles were more fortunate as they won both of their games. They stopped the Vanderbilt jayvees 47 to 36 Tuesday night with Jim Gauthier with 14 and Fred Hinkle with 12 leading the way. Fred House with 16 was high for the Vanderbilt reserves. Friday night, the Frederic junior varsity defeated the Central Lake reserves 52 to 42. Steve Weaver poured in 33 points for Frederic while Gary Buffman with 19 was high for the visiting Central Lake juniors.

## Another Unsigned Letter To The Editor Received

Another "Letter to the Editor" has been received at the Avalanche office unsigned. This letter, apparently from a former teenage resident who is now in the service, was mailed from Nebraska.

The Avalanche will publish letters to the editor without the writer's name appearing if so requested, but must insist that the

letters be signed by the writer when mailed or delivered to the Avalanche.

If the writer of this last letter will mail another acknowledging his authorship of the first, we can then file the two together. We must have copies of "Letters to the Editor" on file, firstly to prove that such a letter was written and is not the editor's own and secondly for use as evidence in case of legal action of any type.

## GOLDEN OPPORTUNITY

In the "gold rush days" a prospector might go from rags to riches overnight.

This just doesn't happen in these modern times. Very few of us are likely to strike it rich in our own back yard.

Our best bet for future prosperity lies in our abilities as wage earners and our talents for effectively managing income to provide the things we need and

want.

We happen to think the best prospects for satisfaction, whether one sells, swaps or trades, are in store for those who do business in their own "back yard"—here in the local community.

If you haven't done so in the past, shop local stores first, whenever you have need. You'll be glad you did.

## Grayling Sixth Graders Hear From Bolivia

The sixth grade pupils of Mrs. Kenneth Ashton at the Grayling Public School were thrilled recently to receive a letter from Bolivia from the American Embassy at LaPaz. It was an answer to a letter written by the class just before Christmas to Mrs. Michael Kristula of Cadillac whose husband at the time was a hostage held by a group of Striking Bolivian tin miners. He was one of four Americans held. The class wrote to Mrs. Kristula in the spirit of the Christmas season they were thinking "Do Unto Others".

Following is the letter the children received:

American Embassy  
La Paz - Bolivia  
February 19, 1964

Mrs. Kenneth Ashton,  
Grayling Public School  
Grayling, Michigan

Dear Mrs. Ashton:

Now that the family and I are back in Bolivia, and our daily routine is back to normal, I would like to thank you and the sixth grade students of the Grayling Public School for the deep concern which they showed for my safety and for the letter which they have written to Mrs. Kristula.

I am forwarding for your students use three copies of a pamphlet entitled "Alliance for Progress in Bolivia" and three copies of another booklet called "Point Four in Bolivia - 1942-1960". Although the latter is slightly outdated, it will, nevertheless, help give the students an idea of the progress that Bolivia has been making with technical and monetary assistance from the United States. In addition, both booklets contain some very interesting photographs about Bolivia.

If there are any questions which your students have about Bolivia which are still unanswered please feel free to write me, and I may be of some assistance to them.

Sincerely yours,

## 76 Percent In Crawford County Drive To Work

(Special to the Avalanche)

New York — A nationwide survey conducted by the Government to determine just how people travel to work each day discloses that, in Crawford County, most of them go by private car or car pool.

No less than 76 per cent of the local residents who go to work do so by car, the figures show. The remainder get to their jobs by a variety of other means.

The purpose of the survey was to obtain data that would be useful in an attack on the nation's transportation maze, which is getting worse every year.

The findings have just been released by the Department of Commerce in a voluminous publication "Journey to Work." It is based on data gathered by the Census Bureau.

The figures for Crawford County show that 1,111 local residents, out of a total of 1,458 who go to work, do so by car or by car pool.

Compared with the 76 per cent locally who travel that way, there are 64 per cent in the United States as a whole who use automobiles to commute to work, 66 per cent throughout the East North Central States and 74 per cent in the State of Michigan.

The modes of travel that are used by most people in a particular community depend largely on where they live in relation to their jobs, on whether their area is lightly or heavily populated and on how available are buses and other forms of public transportation.

Some people, in fact, don't ride to work at all. In Crawford County, for example, there are 80 persons, such as doctors, farmers, shopkeepers and the like, who are listed as working at home.

Another 211 locally live near enough to their jobs to walk to work.

As to the rest, the report shows that there are none who travel by buses or streetcars, none who use rail transit, 21 who use motorcycles, taxicabs or other vehicles and 32 who are in the "not reported" column.

The choice is closely related to income, density of population and car ownership.

New roads have encouraged more people to move to the suburbs and have added still further to the use of cars. The result has been more bottlenecks and increased congestion in the central business districts.

They drove to Traverse City and flew by Eastern to Chicago, from there to Miami, Florida, staying for a time at Miami Beach. They then went to Orlando and Tampa, making a side trip from there to visit friends in Clearwater and Bradenton. From Tampa they flew to New Orleans, Dallas and Fort Worth, Texas, spending a few days with Mr. Buron's sister and husband, Mr. and Mrs. Frank McKay, and mother, Mrs. Mary Buron. Because of heavy snows, flights from Fort Worth to the east were cancelled, so the Burons went by Trans-Texas Airlines to Houston, and there took an Eastern flight to Atlanta, Georgia, Louisville, Kentucky, Indianapolis, Indiana, and back to Chicago. Courtesy of North Central lines they flew back to Traverse City and came home. Later the Burons rejoined their daughter Julianne, who had a few days off, and with her apartment mate, Kay Utery and Kay's parents, flew from Chicago to San Juan, Puerto Rico. They stayed on the "gold coast" there while making a tour of the area. They visited the old part of town, saw the University of Puerto Rico, the residential section, and the rain forest. They attended a Sunday mass, at which the services were the same as here except that they were conducted in Spanish. They stopped at Lujullo Beach for a picnic, and saw the race track, which was closed because of elections. They returned home courtesy of Eastern to Chicago, to Traverse City by North Central and then back home.

Dr. Carl Rasak of Detroit spent a couple of days last week at his Lake Margrethe home.

Mrs. Bertha Peterson fell on the street Tuesday of last week and broke her right arm, which is now in a cast.

The Stuart Anderson family has moved to Brighton, where he is now working at Camp Brighton, a youth camp in the area. He was employed at Camp Lehman while here, and was transferred to his present position.

There are still a few copies of "The Old AuSable" available at the Avalanche office.

Mrs. Harold Long, daughter Mrs. Allen Elzinga and children Lynn and Craig of Vanderbilt, left Sunday to spend a week in the Detroit area visiting relatives.

Jeffrey Jerome was his brother's best man. John Braid, Robert Agli and Gary Newman comprised the usher list.

Mr. and Mrs. Benjamin Jerome, Sr., flew from Ft. Lauderdale, Florida, to attend the wedding.

Chevelle balanced performance is best!

Passing, cornering, threading through traffic, sudden stops—Chevelle excels all around! Chevrolet's new surprise package has what it takes to meet any driving challenge: Six or V8 engines, hefty brakes, Full Coil suspension—and a trim size that makes the most of them!

Chevelle means performance aplenty—standard 120-hp Six or 195-hp V8—and optional at extra cost, a 155-hp Six, a 220-hp V8, a new 327-cu.-in. V8! But Chevelle's performance means more. Chevelle's a foot shorter than the big cars. And the space Chevelle saves in size comes off the ends, not the middle. So it rides like you want a car to ride.

## Support Grows For Warbler As State Bird

MIDLAND — Support is growing for the Michigan Audubon Society's proposal to make the Kirtland's warbler the official state bird.

Resolutions endorsing the MAS campaign have been sent to legislators in Lansing by the Oscoda County board of supervisors, the Mio Sportsmen's Club, Mio Lions Club and the Chamber of Commerce there.

Delegates to the Michigan United Conservation Clubs Region II meeting at Roscommon gave their unanimous support to the move. And Audubon officials counted the U. S. Forest Service among the boosters of the unique and beautiful little bird's drive for state laurels.

Rep. Raymond L. Baker, of Berkley, said he has received several dozen letters from Lansing schoolchildren approving of the Kirtland's warbler as Michigan's feathered representative. He will introduce the necessary resolution in the House, while Sen. Thomas F. Schweigert of Petoskey and Sen. Harold B. Hughes of Clare have pledged their support in the State Senate.

Meanwhile, in a wholly unexpected development, Michigan Audubon Society learned the robin is not the official state bird, although it has been claimed as such since 1931.

In a quirk of fate which went undiscovered for 33 years, the Senate never followed the lead of the House of Representatives in approving a concurrent resolution "to designate and adopt the robin as the state bird."

The resolution was introduced in the House on April 8, 1931, and immediately adopted. It was for-

"This means," a Michigan Audubon Society spokesman noted, "that we have no state bird — legally — although the robin has been a successful pretender to the throne by default."

## You Have To Give To Get . . .

What makes a "good" town? People. What makes a "dead" town? People.

A study was made several years ago by a sociologist of two railroad towns in a Midwestern state. Both towns had been started about the same time when the same railroad came through shortly after the "land rush" got going. Both grew about as fast for a few years.

But since then one town had sort of dried up to about 1,000 inhabitants; the other was a bustling little metropolis of some 12,000 or so people, a modern, pretty progressive city.

There seemed to be nothing much different in the country around the two towns; farming was about the same; conditions more or less the same. Why had one grown and the other virtually died? The sociologist was curious and made a study. You know what he found out?

The town that had grown and prospered had about 15 or 20 people who were loyal and progressive and community-minded enough to give of their time and talent to help build their community. The town that had died didn't have these people. That's all.

Whitehall is one of some eight little towns in Muskegon County. It is the only one of the eight which has both its own waterworks and sewage disposal plant. For years it was the only one which had all its streets hard-surfaced. It has one of the finest school plants in the county. In a county with water pollution problems, we stand in an enviable spot.

None of these things just "happened." They came through the dedicated work of a score or so of people during the last three decades. Many of these people have passed over the Great Divide since then, many have retired; many have simply become old and tired.

New blood has to be pumped into the arteries of the community building effort. New bright, strong young people have to hear the call.

A good community doesn't just grow — devoted people have to steer its growth. Do we want a good business district? Businessmen and customers, together, have to work to bring it about. If the businessman sits on his tail feathers, expecting people will just "naturally" trade with him, he will louse up not only his own business, but that every other businessman on the street.

If the customers ignores the local stores, shops elsewhere first and does only the "crumb" buying at home, eventually the customer can expect to find only "crumb" merchandise on the local shelves. Why not, if that's all that's moving?

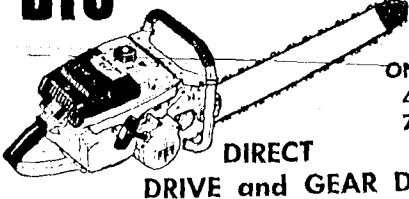

If residents want "them" to do the thinking for the town and the school, and "them" to give the time and effort to bring advancement for the town and the school, while they themselves use their time for fishing or golf or happy loafing, they shouldn't be surprised to find "them" also eventually giving up and deciding to fish or play golf, too.

The ancient Greeks had a name for the man who was too indifferent to interest himself in city's affairs. They called him "idiot" — you get the idea. It wasn't a compliment.

Everyone gets an enormous personal thrill out of the thought that his city is perhaps a little the better place to live in because he once lived there. Whitehall has an enormous potential. The new road will bring us lots of people. They will spell either Opportunity — or Problem. If we work sincerely and unselfishly, these new people can be a blessing for all of us. If we hope somebody else will do our work for us while we play, we'll discover — and this is certain as you read this — why the Greek called the non-working citizens "idiots."

Truck drivers hired by the conservation department report that 52 deer live-trapped on the overpopulated Hanson game area have been safely delivered to their new homes in West Virginia. These deer were transferred on recommendation by the conservation commission and with approval of local residents. Other shipments of 50 deer each to Virginia and Tennessee from crowded Michigan deer yards will complete shipments for the year.

The ceremony was performed at the Matheson home before a group of near relatives and friends. Janice Entsminger, sister of the bride, acted as bridesmaid. Blaine Rutledge acted as best man. A sumptuous breakfast was served at the Colonial hotel to the wedding party. Immediately after the young couple left for Lansing, where the groom is employed in an office of the State Senate, and they will make their home. Mrs. Matheson is a graduate of the Grayling schools with the class of 1937 and attended two winter terms at CSTC, Mt. Pleasant. ## "HEATING WITH FLAMELESS ELECTRICITY GIVES US A FEELING OF COMFORT AND CLEANLINESS WE NEVER HAD BEFORE"

says Mr. and Mrs. Bryce Barnes  
of Eastport, Michigan

"When you live as far north as we do, having a heating system that delivers top comfort at a reasonable cost becomes a real important item. That's why we are sold on electric heat. It heats so gently that most of the time we are not even aware that it's on. And as far as comfort is concerned, we have learned that there's a big difference between being comfortable and simply being warm... even during the severe, record-breaking cold weather we had last winter. 'From my point of view,' says Mrs. Barnes, 'I would select electric heat if for no other reason than the cleanliness it affords.'"

### ALL FAITH CHAPEL

(Continued from Page One)

be primarily on two levels with a small utility and storage basement under the service wing. The building will be fire resistant and constructed of masonry block and brick and wood arches and decks.

The three chapels, the Protestant to the left of the main entrance, the Jewish Temple facing east and adjacent to the main entrance, and the Catholic Chapel to the right, will be complete and equipped with accessories pertinent to their service needs. Arrangements have been made so that Christian Science and other specific denominations may hold separate services when convenient or desired.

Areas in each chapel, equipment, accessories, stained glass windows, and pews have been given by churches, church groups, business and industries, service and other clubs, and union, as well as individuals throughout the 39 county service area. Each such gift will be memorialized on an appropriate plaque. Units still available include pews at \$300 each; equipment and furnishings for the general usage areas range from \$120 up, and may be reserved upon inquiry to Chapel Fund headquarters.

The common narthex is being given by the employees of the State Hospital who understand so well the urgency of the need for the chapels and religious therapy in conjunction with medical and psychiatric care for the patients. There are some 3,000 patients at the State Hospital ranging in age from 6 years to over 90 years with the largest numbers coming from Saginaw, Bay and Muskegon Counties. Many of the patients have been watching the progress of the All Faiths Chapel Fund program and constantly ask the Chaplains...

"WHEN will it be ready for us to use?"

The All Faiths Chapels will provide for the patients "home church" surroundings and facilities in a dignified and religious atmosphere which they do not now have. There will be rooms for religious education classes for children, young people and adults under the supervision of the chaplains. There also will be opportunities for daily devotions, all-purpose rooms for religious group meetings, family conferences and counseling rooms, and adequate chaplains' offices in which patients will be able to confer privately with their clergymen.

Gifts to the All Faiths Chapel Fund are tax deductible up to 30 per cent of adjusted incomes. They may be made in cash or as pledges payable over a three-year period. Anyone or groups wishing to help to complete the building fund necessary may do so by contacting their county chairman, or by sending their gifts to the All Faiths Chapel Fund, P. O. Box 332, Traverse City, Mich. 49684, or to the Chaplains at the State Hospital. All gifts will be credited to the county from which they come. The All Faiths Chapel Fund Committee in Crawford County includes Mrs. Lora Gould, Chairman and Rev. Alfred Fennell, Co-chairman.

## LONGDYKE — COX VOWS EXCHANGED

At a candlelight service February 15th in the Birmingham First Methodist Church, Birmingham, Michigan, Joanne Rae Longdyke became the bride of Harold Cox.

The Rev. Harry O. Martin performed the double ring ceremony. The bride is the daughter of Mr. and Mrs. Harold F. Longdyke, of Birmingham and the bride-groom's parents are Mr. and Mrs. Donald Cox of Bloomfield Hills, Michigan.

Escorted to the altar and given in marriage by her father, the bride was a picture of loveliness in a princess styled scoop-neck-line white silk peau de soie gown with a full skirt that fell into a cathedral train. The bodice and skirt of the traditional long sleeved gown was appliqued in flowers of lace and embroidered with seed pearls, with added back interest of tiny buttons from neck to waistline ending in a tailored bow. Petals outlined in seed pearls secured her bouffant fingertip veil of French illusion. She carried a cascade arrangement of white rose buds, carnations, stephanotis and one white orchid. Unbeknown to the bride, tied to a streamer of her bouquet, for luck and happiness was her maternal grandmother's wedding ring, a tradition Mrs. Longdyke started when the bride's sister, Mary Longdyke Robinson made her vows.

Attending the bride as maid of honor was Holly Freda, bridesmaids were Mrs. Thomas H. Robinson, sister of the bride, Mary Louise Cox, sister of the groom. Doreen Louise Longdyke served her sister as junior bridesmaid. They were gownned in deep pink silk capelet sleeved floor-length fashions accented with a bow at the front waistline. Headpieces were silk Dior bows with circlets of pink illusion. Holly carried gardenias and red roses, the other attendants carried white carnations and red roses. The flower girl, Martha Lynn Cox, sister of the groom, wore an identical gown and carried a basket of rose petals which she strewed as she came down the aisle.

Serving as best man was Thomas Schenning. Ushers were David Campbell, Barry Wickstrom and Paul Walkowick, uncle of the groom.

The bride's mother wore a sheath gown of cranberry red lace over pink taffeta, and a whimsy of cranberry net and miniature feathers. Her corsage was white roses and white carnations tipped in cranberry red. The groom's mother chose to wear a light olive green sheath of silk organza accented by a lace jacket and a matching hat with a Dior bow. She wore a corsage of gardenias.

The groom's grandparents present were Mrs. Mary Walkowick and Mr. and Mrs. George Cox. The grandmothers wore corsages of white carnations. Congratulations from Miami, Florida came from the bride's paternal grandmother, Mrs. Charles Wallon, who was unable to attend.

The church altar was charmingly

## 3 of 4 AuSable Forest Campgrounds in County

Three of the four AuSable state forest campground projects scheduled in 1964-65 are in Crawford county, the Conservation Department reports.

A new 45-unit tent and trailer campsite is nearing completion on Lake Margrethe. The Shupac Lake campground near Lovells, being enlarged from 18 to 30 individual campsites, also will be ready for summer use.

Expansion of the Jones Lake campground, east of Frederic, is to be done in 1965. Capacity will be increased from 15 to 35 units.

The Gurnsey Lake campground, in the AuSable forest near Kalkaska, will be enlarged from 12 to 32 units next year. New tables, toilets and water facilities will be provided at Gurnsey, as well as at the other three forest camping sites.

All told, the department has scheduled 18 campground developments in eight northern lower peninsula state forests in the two-year period. In addition, nine upper peninsula state forests will get 13 new or expanded camping grounds and a southern Algonquin forest campground also will be enlarged.

The two-year program will increase the number of individual tent and trailer sites in 23 state forests from over 1,300 to approximately 1,800.

## COLBY CHEESE

By Beck Kangas and Sandra Canfield

Mrs. Bove's fifth grade class went to Manalocla Thursday morning, February 27th to visit a cheese factory. They rode in six cars.

The process in making Colby cheese, is to first pasteurize the milk, and put it in vats which hold about 1,300 gallons of milk. Next, vegetable coloring and rennet, which causes it to thicken, are added, and heated to about 80° to 100°. Then it is cut to form curds while the machines are started to stir. After the curds have formed the whey is drained, and the curds are thoroughly washed with clean water, drained again and salted. The curds are then shoveled into metal forms that are lined with cloth. The metal forms are put under pressure to force out the excess whey. The cheese is then put into plastic bags, and the air is vacuumed out. The bags are dipped in hot water to shrink, so they fit the cheese snugly. Others are dipped in paraffin. The small cheese weighs from 5 to 6 pounds. The next size weighs about 13 pounds, and the largest, 35 pounds. The whole process in making Colby cheese takes about 4 hours.

The cheese is shipped out every week to 10 days, and sold to Gordon Food Service, Grand Rapids, where it is stored and aged for many months before it is sold to the public.

The class had a very interesting time at the cheese factory, and would like to thank the mothers who drove the cars. That ended a very interesting day at the Manalocla.

Afterwards he showed slides he had taken in Pakistan, showing how the people lived, what they raised, and their way of life in the whole region. It was a fascinating talk and a very welcome surprise.

## Attend The Church Of Your Choice Sunday

The good thing about the seasons is that all we have to do is wait. We may not like the weather we have now, but something different will come soon. We experience a great variety of weather in a dozen months.

It's a great consolation to have this mighty spectacle of spring and autumn, sun and rain, day and night continually unfold around us.

It's the dependable rhythm of nature, the ebb and flow of seasons, the beauty of earth and sky, which give our lives a firm ground tone.

But Christianity is not a nature religion. It finds the revelation of God in nature alone but even more in human personality — our own, as the children of God, and supremely in Jesus as the Son of God.

That is why it is necessary for us to become an important part of His Church.

We can get in the mood to understand the presence of God when we experience the quietness of the woodlands or hear waves breaking against the cliffs, or look heavenward at the billowing clouds. But, it is not enough to get in a mood. We must join in the communion and fellowship of other believers in order to obtain our purpose and faith.

Come, let us go into the House of the Lord. . . .

Avalanche.  
Dear Bob:

Referring to a recent letter to you through the medium of the Avalanche; regarding teen age drinking, ... I just want to say to these teen agers who have courage enough to take a stand against the matter. Yes, there is some one who will help you, ... I will and I know others that will too, it's a matter of getting something started.

If these teen agers will contact me when I get home, (which will be about March 10th.) I have a plan in mind whereby, at least some of these good young people can be directed in a more wholesome and righteous life.

Yours truly,  
Dan C. Babbitt

## MOOSE NEWS

Our congratulations to Elmer Neal, for being the first member to earn a diamond jubilee watch. We understand Elmer is going to try to sponsor another twelve members into the lodge before the deadline in July. All members are eligible for this award. Details are at the lodge.

Saturday night was a busy night full of surprises at the club. The women of the Moose had an installation and also social night with a surprise baby shower for Evelyn Waite. There was also a surprise birthday party for the Governor of the Lodge, Alfred Hanson, who celebrated his 74th birthday on Friday, Feb. 28th. A buffet style lunch was served to a fully packed club room, where members were enjoying the fine music by Dick Johnson and the sons of the North-ern Pines.

It has been announced that the band will be playing at the club on Saturday nights for the next few weeks. This band is one of the finest in this part of the country, so come in, and enjoy yourself to some good dance music and fine entertainment.

We would like to send our thanks along with the MYO, to the people of Grayling who supported this fine teen group on their car wash and bake sale. There is no finer encouragement to a teen-ager to know that adults are for them, will support and help them instead of being against them.

The next enrollment will be this Sunday, March 8th at 2:00 p. m. at the Lodge. The Grayling Degree team will be doing the degree work.

Bill Fitzgerald, who was re-elected District Vice-President at the District meeting in Manistee Sunday reported a very large turnout, and a lot of good ideas exchanged. The next District meeting will be at Grayling on May 17th.

## M. Y. O. NEWS

Our February 28th M.Y.O. meeting saw our largest crowd of 71 teenagers and seven adults. Two anonymous parents made and donated a "MYO banner" of which we are very proud. Thank you.

Our M.Y.O. officers have been invited and accepted to attend a meeting with the Muskegon M.Y.O. officers at the Muskegon Lodge. We are going Saturday, March 7th.

The girls' bake sale was sold out at 3:30 and we would like to thank you who came, and also those who tried to help by donations, even if the boys did win. The boys' car wash went simply great; they nearly tripled the income of the bake sale.

Our group would like to thank "Herb" for his advertising Saturday and hope the seniors make their goal! Good luck seniors.
